

VENDOR Setup:

We are asking all vendors to enter from Bridgeboro St onto Scott St. Setup will be open starting at 3pm and will end by 5:45pm. The event is scheduled from 6pm to 9pm. Vendors will be assigned a spot on a rolling basis starting on Pavilion Avenue near Zurbrugg Way and we will work our back down Scott St to Middleton St alternating each side. This will allow for a smooth and quick setup. (See below map). We are allocating approximately 18'x15' for each vendor (approx size of a parking spot). Vendors will have to provide their own tables. We will not be able to provide electric. After setup, you will continue on to Zurbrugg Way where you will be able to use the parking lot at Zurbrugg Way and Kossuth St. Keep in mind that the road will be shutdown to ALL traffic including vendors by 5:45pm and will not be opened back up until 9pm. Due to the expected pedestrian traffic, we will not be able to allow for any vendor to drive their vehicle in to break down any earlier than 9pm.

Trunk or Treat Vehicles Setup:

We are asking Trunk or Treat vehicles to enter from Fairview St at Scott St. Setup will be available starting at 4pm. The area of setup will be in front of the police station. Vehicles will be setup parked facing into the curb and will be positioned side-by-side. Due to limited space, no additional space will be available for trunk or treat vehicles so please plan accordingly.
